## PUBLICATIONS LIST

I. G. LENNON, N. KOZYRSKI, L. GRAY

Because the division of material into "Filed Reports" or "Published Reports" is often difficult to establish, only material falling into the following categories has been included in this list:

1. All material originating from, and *printed* by, the Forests Department of Western Australia.
2. All material originating from the Forests Department, and *duplicated* for external distribution.

The list does not include papers prepared for conferences, except when those papers have been issued as Departmental Bulletins.

Material contained in the list, when still in print, is available on request to the Forests Department of Western Australia, 54 Barrack Street, Perth, W.A. 6000. All material is issued free of charge, except those items marked with an asterisk, whose cost is available on request.

Material that is out of print can be examined at the Department's library.
