

### ***Acacia peregrinalis*, a new name for *A. peregrina* (Leguminosae: Mimosoideae)**

When describing the endemic New Guinea species *Acacia peregrina* (McDonald & Maslin 2000) we had overlooked Willdenow's earlier use of this name, which is now referable to the New World species *Anadenanthera peregrina* (L.) Speg. A new name is published here to provide a valid name for our *Acacia* species.

***Acacia peregrinalis* M.W. McDonald & Maslin, *nom. nov.***

*Acacia peregrina* M.W. McDonald & Maslin, *Austral. Syst. Bot.* 13: 67, fig. 22 (2000), *nom. illeg., non A. peregrina* (L.) Willd. (1806).
