

**THE DISTRIBUTION OF ACACIA (LEGUMINOSAE: MIMOSOIDEAE) IN AUSTRALIA.  
PART 2. LISTS OF SPECIES OCCURRING IN 1° x 1.5° GRID CELLS**By B.R. Maslin<sup>1</sup> and L. Pedley<sup>2</sup><sup>1</sup>Western Australian Herbarium, George St., South Perth, Western Australia 6151<sup>2</sup>Queensland Herbarium, Meiers Rd., Indooroopilly, Queensland 4068

## ABSTRACT

729 *Acacia* species are listed according to their occurrence in each of the 562 1° lat. x 1.5° long. grid cells for Australia.

In the first paper of this series on *Acacia* in Australia (Maslin and Pedley, 1982) the known distributions of 729 species were mapped. A computer-based system was used to store this distribution information (Foston and Butson, 1982) and through automated techniques a listing of species according to their occurrence in each of 562 1° latitude by 1.5° longitude grid cells for Australia is now presented (Table 1).

In these lists the grid cells are arranged in increasing numerical order as shown in Figure 1 of Part 1. The numbering of grid cells follows that proposed by Brook (1977). After each number the National Mapping name for that grid cell is shown. Because of discrepancies between the Brook and the National Mapping grids (see Part 1), the following grid cells do not have an identifying name; 101, 143, 212, 254, 464, 468, 469, 472, 501, 502, 680, 727, 743, 764, 771, 879, 977, 978, 980-992.

## ACKNOWLEDGEMENTS

Mr. M. D'Antuono is thanked for his programming expertise which enabled us to present a reciprocal listing of the species distribution data given in Part 1. Suzanne Curry is thanked for expert technical assistance.

ERRATA

Western Australian Herbarium Research Notes No. 6 (1982)

1. Maslin, B.R. and Pedley, L. The distribution of *Acacia* (Leguminosae:Mimosoideae) in Australia. Part 1. Species distribution maps.

For *A. campylophylla* (p.24) add grid cells 255 and 256.

" *A. cana* (p.24) add grid cell 420.

" *A. chrysotricha* (p.26) delete grid cell 336.

" *A. crassicarpa* (p.31) delete grid cell 521.

" *A. daviesioides* (p.34) delete grid cell 193.

" *A. meisneri* (p.78) delete grid cells 266, 268, 275, 278.

" *A. melanoxylon* (p.78) delete grid cells 235, 236.

" *A. oligoneura* (p.86) add grid cell 319; delete reference to this species on p.2.

" *A. oncinophylla* (p.87) add grid cell 264.

2. Maslin, B.R. and Pedley, L. The distribution of *Acacia* (Leguminosae:Mimosoideae) in Australia. Part 2. Lists of species occurring in 1° x 1.5° grid cells.

For grid cell 193 (p.136) delete *A. daviesioides*.

" grid cell 264 (p.141) add *A. oncinophylla*.

" grid cell 319 (p.145) add *A. oligoneura*.

" grid cell 521 (p.156) delete *A. crassicarpa*.

Table 1. *Acacia* species listed according to their occurrences in 1° lat. x 1.5° long. grid cells for Australia.
