

- (c) A person shall not drive any bird over shooters by means of motor vehicles, aircraft, power boats or other means;
- (d) A person shall not take more than fifteen wild ducks on any one day.
- (e) Eggs of any wild duck shall not be taken for any purpose.

NOTE: A continuous open season applies throughout the Kimberley, North-West and Eastern Land Divisions. For further details apply to the Department of Fisheries and Fauna, 108 Adelaide Terrace, Perth.

#### BLACK SWANS IN PERRY LAKES

When the area around Perry Lakes was chosen as a site for the British Commonwealth and Empire Games, thoughts were expressed that the lakes would be ruined from a water-fowl conservation point of view. However, Fauna Wardens Frizzell and Morrison have reported that a pair of black swans have taken up residence there and have hatched out a brood of cygnets.

#### GIANT PETREL RECOVERED

Mr. P. Rigg, of Lancelin Island, recovered a giant petrel near Lancelin Island 80 miles north of Perth on June 25 last. The bird was found to be carrying band number 5021622. After noting the number Mr. Rigg released the bird, which appeared to be in good health.

Subsequent information received from the British Trust for Ornithology advises that the bird was banded by a British Antarctic Survey at Signy Island (South Orkney), Antarctica, on March 10, 1965.
