

**THE DEPARTMENT OF CONSERVATION AND LAND MANAGEMENT**

**DECLARED RARE AND PRIORITY FLORA LIST**

for Western Australia

(KJA 21/11/91)

**Key:**

**CONSERVATION CODES**

**R: Declared Rare Flora - Extant Taxa**

**Taxa which have been adequately searched for and are deemed to be in the wild either rare, in danger of extinction, or otherwise in need of special protection, and have been gazetted as such.**

**X: Declared Rare Flora - Presumed Extinct Flora**

**Taxa which have not been collected, or otherwise verified, over the past 50 years despite thorough searching, or of which all known wild populations have been destroyed more recently, and have been gazetted as such.**

**1: Priority One - Poorly Known Taxa**

**Taxa which are known from one or a few (generally <5) populations which are under threat, either due to small population size, or being on lands under immediate threat, e.g. road verges, urban areas, farmland, active mineral leases, etc., or the plants are under threat, e.g. from disease, grazing by feral animals, etc. May include taxa with threatened populations on protected lands. Such taxa are under consideration for declaration as 'rare flora', but are in urgent need of further survey.**

**2: Priority Two - Poorly Known Taxa**

**Taxa which are known from one or a few (generally <5) populations, at least some of which are not believed to be under immediate threat (i.e. not currently endangered). Such taxa are under consideration for declaration as 'rare flora', but are in urgent need of further survey.**

**3: Priority Three - Poorly Known Taxa**

**Taxa which are known from several populations, at least some of which are not believed to be under immediate threat (i.e. not currently endangered). Such taxa are under consideration for declaration as 'rare flora' but are in need of further survey.**

**4: Priority Four - Rare Taxa**

**Taxa which are considered to have been adequately surveyed and which whilst being rare (in Australia), are not currently threatened by any identifiable factors. These taxa require monitoring every 5-10 years.**

#### Priority Eight - Proposed DRF

Taxa for which adequate surveys have been completed. These taxa are being considered for inclusion on the list of Declared Rare Flora, but are currently outside of the policy for taxa to be declared, e.g. hybrids.

#### Priority Nine - commercially exploited taxa

Taxa that are commercially exploited by the Western Australian Wildflower Industry. They may not be adequately represented on conservation reserves, or some characteristic of their disease susceptibility, abundance or distribution may make them vulnerable to unrestricted exploitation.

\* = species which also occur outside Western Australia

+ = species presumed to be the result of hybridization

" = manuscript names. These names have not been published and must be indicated as being manuscript names whenever used, either by the inclusion in inverted commas, or the addition of m.s. after the name.

#### CALM REGIONS

CF	Central Forest
GAS	Gascoyne
GLD	Goldfields
GRE	Greenough
K	Kimberley
M	Metropolitan
NF	Northern Forest
P	Pilbara
SC	South Coast
SF	Southern Forest
W	Wheatbelt

Note that the CALM Northern Forest and Metropolitan Regions are now amalgamated into the new Swan Region. This change has not been reflected in this list, and the necessary adjustment must be made.

DECLARED RARE AND PRIORITY FLORA LIST  
DEPARTMENT OF CONSERVATION AND LAND MANAGEMENT

SPECIES	PRI CODE	CALM REGION	DISTRIBUTION	FLOWERING PERIOD
'Catacolea enodis'	3	GRE	Badgingarra, Alexander Morrison N.P., Eneabba, Cockleshell Gully, Coomallo Creek	Jul-Sep
'Cyanicula ixioides'	4	NF	Bindoon, Beechina, Wooroloo	Sep
'Drakodenia ornata'x +	1	W	Pithara	Sep
'Drakonorchis barbarella'	R	GRE,GAS	NE of Kalbarri	Aug-Sept
'Drakonorchis drakeoides'	R	GRE,W	Meckering-Coorow	Aug-Oct
