## DECLARED RARE AND PRIORITY FLORA LIST

for Western Australia

### CONSERVATION CODES

R: Declared Rare Flora - Extant Taxa

**Taxa which have been adequately searched for and are deemed to be in the wild either rare, in danger of extinction, or otherwise in need of special protection, and have been gazetted as such.**

X: Declared Rare Flora - Presumed Extinct Taxa

**Taxa which have not been collected, or otherwise verified, over the past 50 years despite thorough searching, or of which all known wild populations have been destroyed more recently, and have been gazetted as such.**

1: Priority One - Poorly known Taxa

**Taxa which are known from one or a few (generally <5) populations which are under threat, either due to small population size, or being on lands under immediate threat, e.g. road verges, urban areas, farmland, active mineral leases, etc., or the plants are under threat, e.g. from disease, grazing by feral animals, etc. May include taxa with threatened populations on protected lands. Such taxa are under consideration for declaration as 'rare flora', but are in urgent need of further survey.**

2: Priority Two - Poorly Known Taxa

**Taxa which are known from one or a few (generally <5) populations, at least some of which are not believed to be under immediate threat (i.e. not currently endangered). Such taxa are under consideration for declaration as 'rare flora', but are in urgent need of further survey.**

3: Priority Three - Poorly Known Taxa

**Taxa which are known from several populations, and the taxa are not believed to be under immediate threat (i.e. not currently endangered), either due to the number of known populations (generally >5), or known populations being large, and either widespread or protected. Such taxa are under consideration for declaration as 'rare flora' but are in need of further survey.**

4: Priority Four - Rare Taxa

**Taxa which are considered to have been adequately surveyed and which, whilst being rare (in Australia), are not currently threatened by any identifiable factors. These taxa require monitoring every 5-10 years.**

Note, the need for further survey of poorly known taxa is prioritised into the three categories depending on the perceived urgency for determining the conservation status of those taxa, as indicated by the apparent degree of threat to the taxa based on the current information.

\* = species which also occur outside Western Australia

x = species presumed to be the result of hybridization

ms = manuscript names. These names have not been published and must be indicated as being manuscript names whenever used, either by the standard format of the addition of ms after the name, or the inclusion in inverted commas.

#### CALM REGIONS

CF	Central Forest
GLD	Goldfields
K	Kimberley
MW	Midwest
P	Pilbara
SC	South Coast
SF	Southern Forest
SW	Swan
WB	Wheatbelt

Recommendations for additions, deletions or changes to the Declared Rare and Priority Flora List should be forwarded to the Administrative Officer Flora or Principal Botanist, Wildlife Branch, CALM.

CM302\*

Wildlife Conservation Act 1950

## Wildlife Conservation (Rare Flora) Notice 1999

Made by the Minister for the Environment.

1. Citation

This notice may be cited as the *Wildlife Conservation (Rare Flora) Notice 1999*.

2. Interpretation

In this notice —

“extant” means known to be living in a wild state;

“protected flora” means any flora belonging to the classes of flora declared by the Minister under section 6 of the Act to be protected flora by notice published in *Gazette* 9 October 1987, at p. 3855;

“taxon” includes any taxon that is described by a genus name and any other name or description.

Note: The plural form of “taxon” is “taxa”.

## 3. Rare flora

Subject to clause 4, protected flora —

- (a) specified in Schedule 1, being taxa that are extant and considered likely to become extinct or rare and therefore in need of special protection; and
- (b) specified in Schedule 2, being taxa that are presumed to be extinct in the wild and therefore in need of special protection,

are declared to be rare flora for the purposes of section 23F of the Act throughout the State.

## 4. Application

Clause 3 does not apply to those plants of a taxon of protected flora specified in Schedule 1 or 2 that have been planted for any purpose other than such plants that have been planted for the purpose of conservation of that taxon and in accordance with approval given by the Executive Director.

## 5. Revocation

The *Wildlife Conservation (Rare Flora) Notice 1998* is revoked.

## Schedule 1 — Extant taxa

[cl. 3(a)]

## Division 1 — Spermatophyta (flowering plants, conifers and cycads)

- |   |  |
