## No. 35 (July 2014)

Science & Conservation Division Mission: The provision of up-to-date and scientifically sound information to uphold effective evidence-based conservation of biodiversity and sustainable natural resource management in Western Australia

*Science Communications* lists titles of publications, reports etc prepared by the staff of the Science component of the Science and Conservation Division. This issue is for the period February-July 2014.

If you require a copy of a **submitted** paper please contact the author. For all other titles please contact [Library@DPaW.wa.gov.au](mailto:Library@DPaW.wa.gov.au)
