No. 49 (July 2021)

Biodiversity and Conservation Science Mission: The provision of up-to-date and scientifically sound information to uphold effective evidence-based conservation of biodiversity and sustainable natural resource management in Western Australia

*Science Communications* lists titles of publications, reports etc prepared by staff of Biodiversity Science and Conservation. This issue is for the period February-July 2021.

If you require a copy of a **submitted** paper please contact the author. For nearly all other titles a PDF link is included. Any problems with access please contact [library@dbca.wa.gov.au](mailto:library@dbca.wa.gov.au)
