**A CHECK LIST OF EUCALYPTUS OF
WESTERN AUSTRALIA**

by T. E. H. Aplin
Editor: C. H. Trotman

The author: T. E. H. Aplin, Botanist, Western
Australian Herbarium, Department of Agriculture.

Manuscript received November, 1976.

A CHECK LIST OF EUCALYPTUS OF WESTERN AUSTRALIA

by T. E. H. Aplin

The check list comprises all Western Australian species, subspecies and varieties of *Eucalyptus* described before November, 1976.

The arrangement is alphabetical with separate lists of botanical names and common names. All well known synonyms of botanical names and all better known alternative common names have been included.

The nomenclature follows current usage in the Western Australian Herbarium and is based on the results of studies published in recent years by R. D. Johnston and Rosemary Marryatt, L. D. Pryor and L. A. S. Johnson, G. M. Chippendale, M. I. H. Brooker, N. Hall and D. J. and S. G. M. Carr.

It is hoped that acceptance of the botanical and standard common names provided in the list, by workers in Western Australia and elsewhere, will help in clarifying communication at all levels.

Special thanks are due to George Chippendale, Division of Forest Research, CSIRO, Canberra, for critically checking the manuscript and for clarifying several points of nomenclature.

BOTANICAL NAMES AND STANDARD COMMON NAMES OF EUCALYPTUS TAXA RECORDED IN WESTERN AUSTRALIA
