**RESERVE 22176, FOR PROTECTION OF FLORA**

The above reserve is of just over 4 hectares in size and is linear in shape, being a former road reserve. It became vested in the National Parks and Nature Conservation Authority (NPNCA) as a result of the 1991 Amendment to the Conservation and Land Management Act.

Surveys of the reserve have shown that its vegetation contained nothing of outstanding importance, and the NPNCA has endorsed a Departmental recommendation that the reserve is inappropriate as a nature reserve. In a recent assessment of the reserve the following recommendations were made:

1. The reserve should be retained, and the boundary fence repaired to prevent further grazing by stock.
2. The reserve's purpose and vesting should be amended as appropriate to allow the reserve's use as a recovery site for rare flora, to establish a population of the critically endangered *Pityrodia scabra*.

I shall therefore be grateful if you will consider changing the purpose of reserve 22176 to 'Conservation and Site for Re-establishing Native Plant Species'.
