CLAUSE 9

Cape St Cricq Lighthouse is situated on the southern extremity of Dorre Island westward of Carnarvon on Class "C" "Lighthouse" Reserve 37338.

The Australian Maritime Safety Authority recently surveyed all existing improvements on the site and it has been determined that Reserve 37338 will require enlarging.

The surrounding land is Class "A" "Conservation of Flora and Fauna" Reserve 24869 which is vested in the National Parks and Nature Conservation Authority.

It is proposed to excise an area of 820 square metres from Reserve 24869 and CALM has agreed to the adjustment.

The new site comprises Gascoyne Location 402 with an area of 1225 square metres as surveyed on Diagram 88936.

Similarly, Lighthouse Reserve C 37383 situated near Cape Ronsard on the other major portion of Class "A" Reserve 24869 (Bernier Island) requires land added to encompass all improvements.

An area of 663 square metres needs to be excised and the new site is now surveyed as Location 403 on Diagram 89015.

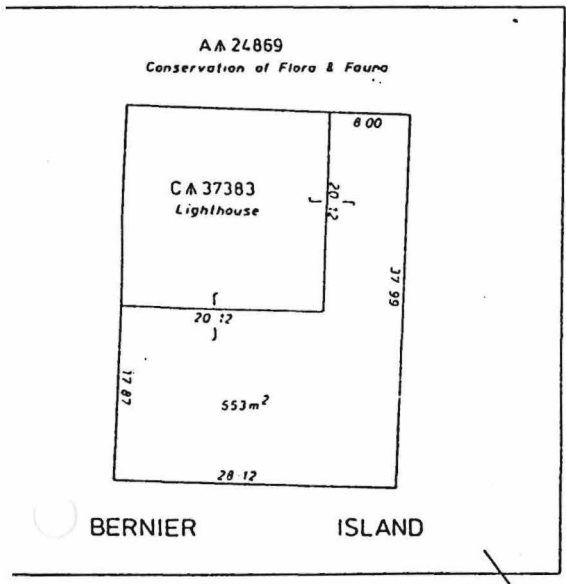

As Reserve 24869 has "A" Class status, the approval of both Houses of Parliament is required to excise the land.
