

RESERVE ACTION SHEET - CONSERVATION RESERVES

RESERVE No. 46401

REASON FOR ACTION

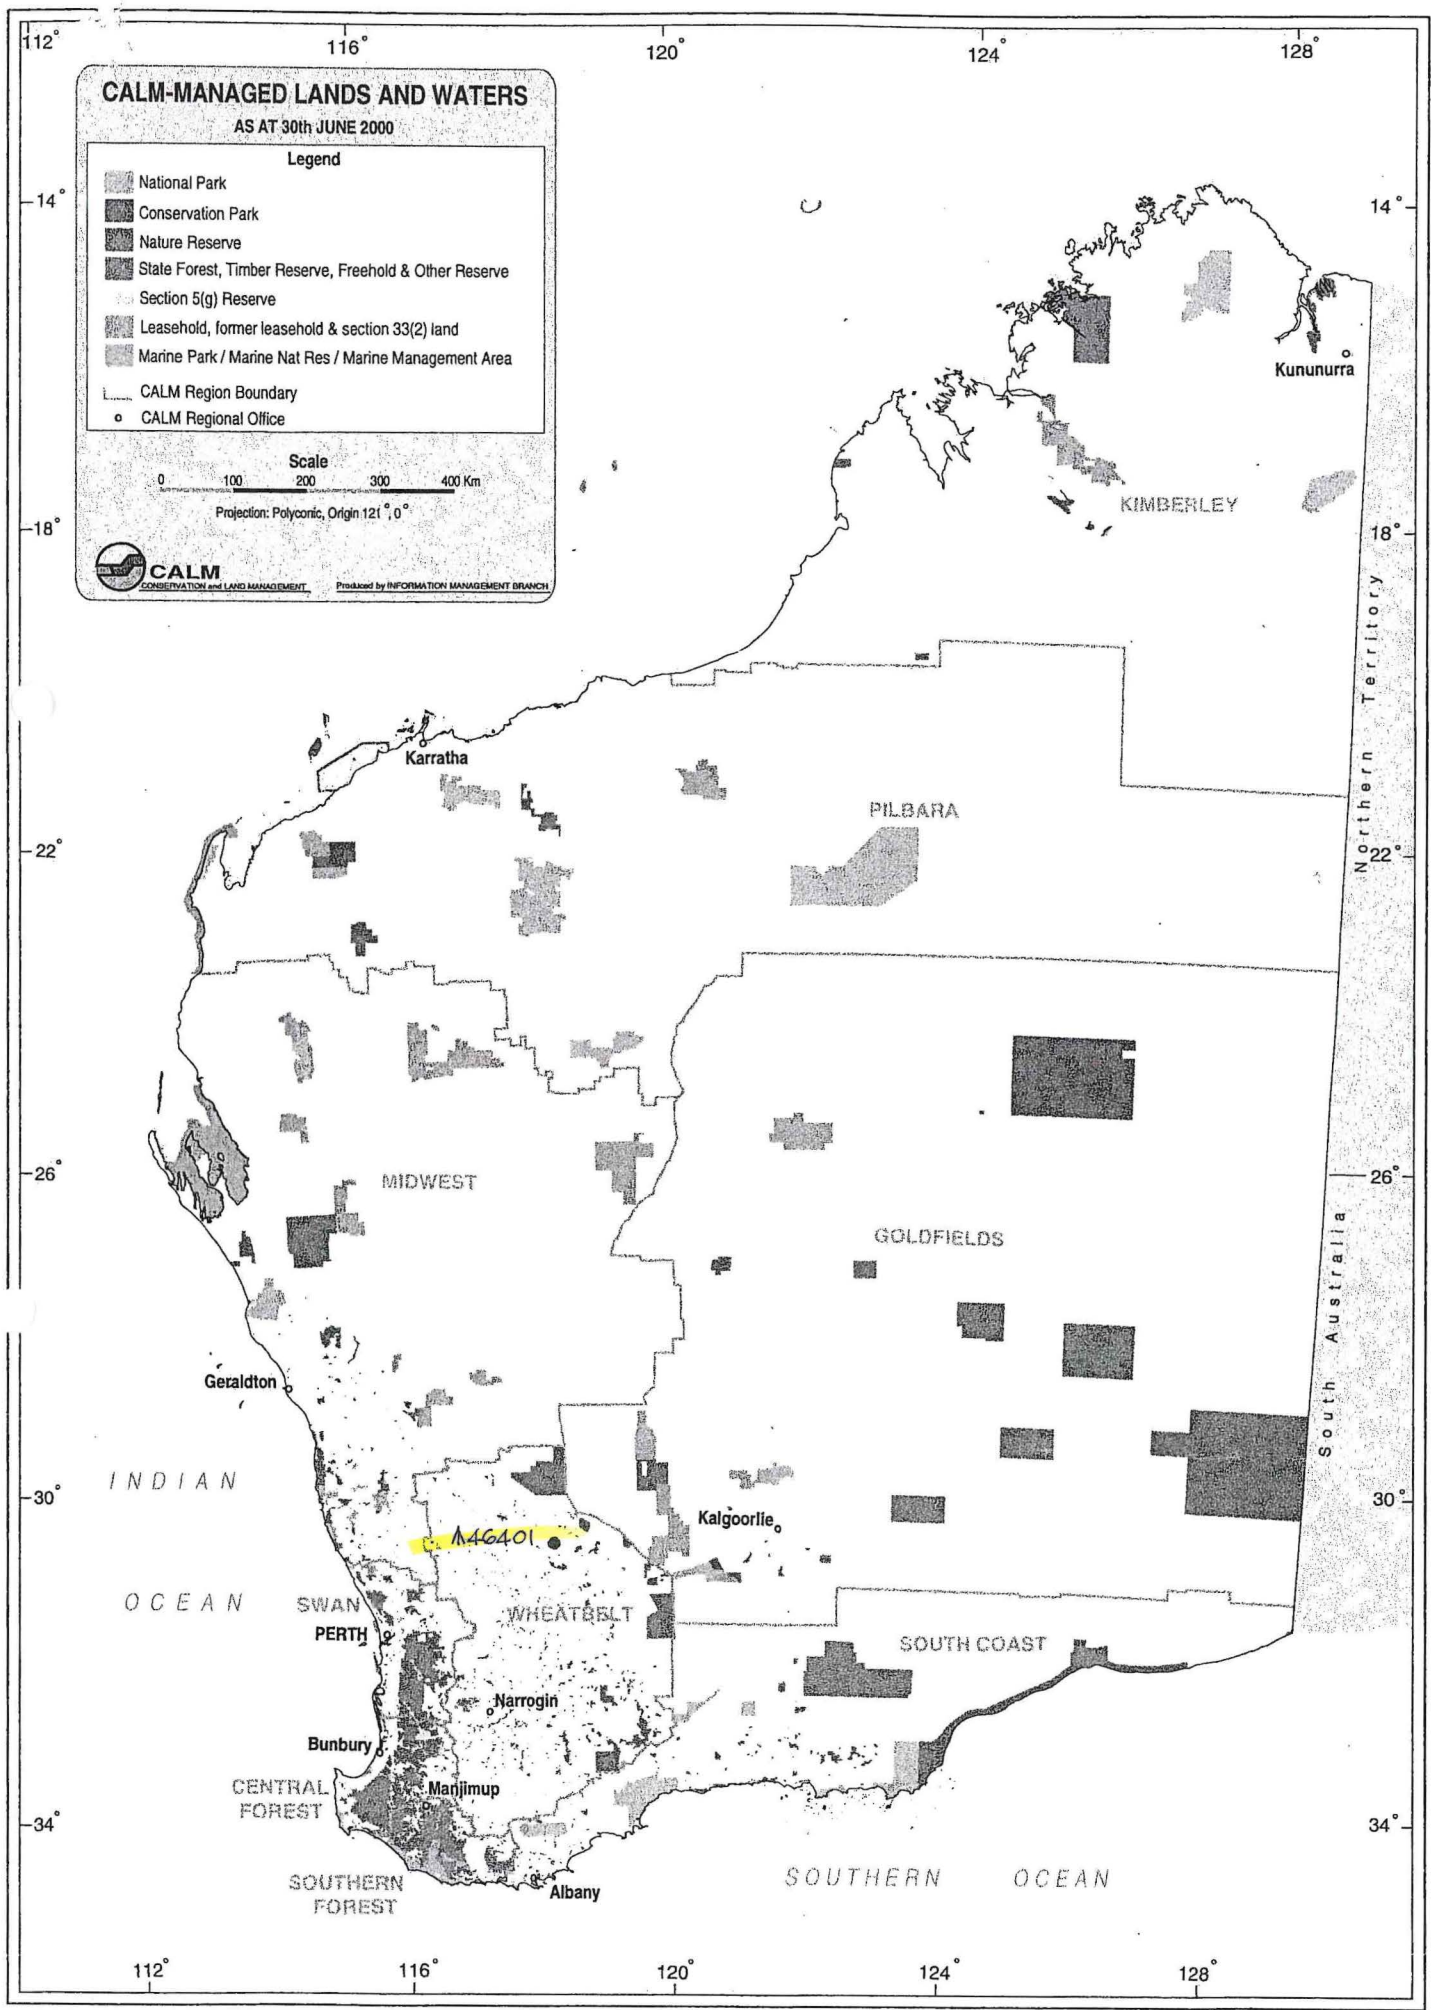

Creation of a new nature reserve, with a management order issued to the Conservation Commission for the purpose 'Conservation of Flora and Fauna'.

Area: 1785.18 hectares.

The reserve comprises a number of vegetation associations that are poorly represented in the Wheatbelt region and also contains many mature trees, which provide nesting opportunities and shelter for a number of bird and mammal species. As the reserve provides a continuous corridor of remnant vegetation along part of the drainage system of Avon River basin, it may assist in maintaining the water balance of the immediate and downstream areas
