

MARKING OF ANIMALS FOR RESEARCH

Various methods of marking have been used and the following are the most common:

1. Ear tags
2. Collars
3. Banding
4. Tattoos
5. Hair clipping
6. Dye marking

Some of the ways and markings used are shown on the following pages.

CAUTION:
Do not use any marking method which is likely to injure the animal or which is likely to be lost or obscured.

REMARKS:
A mark should be placed on the animal in a conspicuous place so that it can be easily seen.

PREPARATION:
The animal should be held in a secure position and the marking should be made in a clean, dry place.

MARKING:
The marking should be made in a clean, dry place and should be clearly visible.

MARRON

Let's conserve them please!

YOU can help by abiding by these simple RESTRICTIONS

1. UNATTENDED TRAPS
The use of unattended traps is banned throughout the year.
2. CLOSE SEASON
The season for all water snails and shells is closed from March 1 to September 30.
3. MINIMUM SIZE
The minimum size for all water snails and shells is 25 mm (1 inch) in length.
4. FEMALE IN BERRY
Do not take females in berry of any kind. These will have young in the water.
5. SALE PROHIBITED
Persons shall not sell any water snails, crustaceans, fish, or other aquatic animals for sale or for use in any other way.
