

Mr P. Ryan  
BROOME NURSERY

Mr J. Paine  
KARRATHA NURSERY

Please find enclosed an album of photographs of botanical specimens found in the Pilbara and Kimberley regions.

Though the covers are not the correct size for the plastic sheets holding the photographs, they were the best that could be found in Perth and should protect the photographs until the correct sized covers can be found.

The photographs were taken by Mr F. Lullfitz and he has very kindly presented copies to Head Office, Broome Nursery and Karratha Nursery for the use of the staff. I understand he has more photographs being developed and intends to add to the collection from time to time.
