soil map	Environ. Geol. Lake Clifton - Home 1	Corzard, 1987

Sites at Clifton Township were located here as the condition of the easily accessible 26a (elsewhere to south) was poor appeared to have been mined and/or grazed in the past and regrowth was evident.

Adjacent 25 was also in variable condition to a site not done in Lake Clifton Township but thought G.J. Keighly had done a site here.
