

Bronwen Keighery said this orange page was a project that DPAW/ DBCA GIS was going to do for all Bushforever sites but it did not happen.

We (Wildflower Society) did some additional quadrats, post the report, and I think they all went in the new FCT analysis with updated taxonomy.

Greg Keighery 10/11/2025

ENTERED ON GIS

Name: Floristics of Lowlands
Date: 05/05/2006
Capture Author: Thomas Leong / Ian Steward

Comments:

Polygon

Created to match documented study area with acceptable level of accuracy

Accuracy Levels:

- High = Document contained visual and or described spatial references easily copied, resulting in little or no polygon boundary errors
- Acceptable = Document contained visual and or described spatial references with complex boundaries, resulting in minor boundary errors
- Low = Document contained little or no visual and or described spatial references, resulting in polygon boundary errors

Attributes

Report Info – Captured without problems

Custodial/Contact – Captured without problems
